It is the end of June, and she is scated in the small drawing-room, awaiting the saillyndvent of morning visitors. They have been a week in town, and Horace Margrave has not called upon them. She has a weary air this morning, and she seems to seek in vain for something to occupy her. Now she strolls to the open piano, and plays a few chords, or u brilliant run, or softly touches the notes of some pensive air, and sing's some Italian words; now she takes up an uncut novel from the table, and reads a page or two here and there, wherever the book opens; she a great deal of trouble in selecting and com of my existence: a heart incapable of paring wools, and threading needles, but cheerishing a strong affection, or a sinwhen this is accomplished, she does not cere friendship, for mny living being. do three stitches; then she loiters listlessly about the room, looking at the pictures, chiefly valuable engravings, which adorn the pale silver-gray walls; but at last she is so utterly weary, that she My life, at its brightest, is a dreary one. things berself into a deep easy chair close A dreary present, which can neither look to the open window; and sits idly looking back to a fairer past, nor forward to a down across a lilliputian forest of heliotropes and gerammus into the hot sum-

"What settlements were made?" he repeats her question, as if it were the last

of all others which he expected to hear. "Yes, my fortune! How much of it was settled on myself?" "Not one penny!" She gives a start

of surprise, which he answers in his most wenchalant manner. "Not one penny of it! There was no mention whatever of any thing like a settlement, in your uncle's will. He left his money to you, but he left it to you only on condition that you shared it with his adopted and beloved son, Henry Dalton. This implies not only a strong affection for, but an implicit faith in, the young man. To tie up your money, or to settle it on yourself, would be to nullify your unele's will The man that would be trusted by him, could be trusted by you. This is why I never suggested a settlement. I may have, perhaps, acted in rather an unlaws yer-like manner, but I do believe, my dear Ellinor, that I acted in the only manner consonant with your late uncle's affectionate provisions for the two per-

sons nearest and dearest to him?" "Then Henry Dalton is sole master of

"But in spite of this, you doubt him?" ie asked, earnestly.

"How can I do otherwise? Of the fortune which I have brought to him, he refuses to allow me a penny. He, the husband of a rich woman, enjoins economy-economy even in the similest details. Moses Smith, living about six miles west of this place, is a well known, industrious and well-to-do farmer, and a man whose word is respected by his neighbors. He recites a very remarkable wooden box in his bed-room. For two bers broke into his house and carried off his golden treasure. The second occasion of the vision happened last Wednesday night week. Thursday he had made arrangements to visit this town on business. but the singularity of the dream was so impressed upon his mind that before leaving home, he removed his gold from the box and hid it in a hollow stump in the field. Thursday evening upon returning to his home he found his honse had been broken into, and ransacked, and the box in which his treasure was usually kepe bursted open and scattered on the floor. He is well satisfied that had it not been would have lost his gold.

July, 24, 1875. EDITOR HERALO:-The incessant rains have damaged the eorn and tobacco to in the bottom lands along Rough Creek is rained, the devastation is complete. Some farmers in this neighborhood planted their entire crop in the bottoms, consequently their prospects are gloomy in the extreme. My tobaceo was in the bottoms, and was covered for several days by five feet of water-not a single plant of what was a promising crop is now standing.

Among the large corn growers in the Rough Creek bottoms, Messrs, James L. Hamilton, John P. Smith and Jacob Weller have suffered largely. Though orn will be ent short to some extent in locations bordering on creeks, the amount of acreage is double that of last year, and no perceptible scarcity will be felt, as a great amount of llungarian grass has been sowed, which will be a considerable saving of corn in the wintering of stock. We have some beech mast on the lower branches, which escaped the frost; this, also, will prove a saving of corn.

Wheat has not proved to be so good as sons friendly to these orders and to the last year, some crops being frozen and cause of education, to unite and erect a drowned out, but a greater amount has substantial building, with school room been sowed, and the quantity will, no below, and hall above for the different doubt, be greater, the quality as good,

The project is something new and origiunl, and, in our opinion, much good might We were reading the sad news of a result from it. If all the Taylors and for all kinds of their kin from this neighborhood were to attend, the silence of utter desolation and desertion would reign over the verdant hides, sheep pelis, eggs, butter, bacon, potatoes, fields and beautiful homes of the rural inhabitants of Taylortown. None would be left to tell where its peaceful population had gone, for the Taylors and their relations embrace the present population almost entirely. In closing, we say all hail to the project, which has our hearty H. B. T. endorsement.

ATTENTION, FARMERS!

THE ADVANCE:

This machine stands in merit far chead of all competitors. In fact there is an machine fit to be called its competitor. We have improved this machine very much during the past year, preserving however, the many points of excellence which have made it so deservedly popular in the past. We have replaced the Double Wooden Frame by a single one, substituting for the Auxiliary Frame an iron drug bur, thus making the machine much lighter casions to be used by ministers of any denomination. Before straining the milk always fill the pans with cold water half an hour before they are wanted. Then empty them and dry them with a clean dry cloth. Now fill with milk and set away in a cool place, and your milk will keep sweet longer than if warm pans, not sealded, had been used.

Care should be taken to have the cream jar kept sweet and clean. Good hutter depends nineh on this. If two jars be used, week about, it will be better.

Butter never should be worked when first taken from the churn. Simply rinse it with cold water, salt, and set away a few hours, then work with a paddle. If butter is worked when first churned it becomes oily, and the beautiful grain is destroyed.

I heartily agree with Lizzie Mac in regard to rinsing butter. The little buttermilk left in the butler sours much more than the little water, as the water unites with the salt, forming to appreciate fully the blessings inherbrine, which assists in preserving the butter.

I have had several years of experience in both ways of treating butter, and find more difference in packed butter than that which we have for immediate use.

REPRESENTATIVE AND CHAMP-ION OF AMERICAN ART TASTE

PROSPECTUS FOR 1875-EIGHTH YEAR.

THE ALDINE

A MAGNIFICANT CONCEPTION WON-

The necessity of a popular medium for the representation of the productions of our great artists has always heen recognized, and many

The Aldine while issued with all of the regularly, has none of the temperary or timely interests characteristic of ordinary periodicals. It is an elegant miscellany of pure, light, and graceful literature, and a collection of pictures, the rarest collection of artistic skill, in black and white. Although each succeeding number affords a fresh pleasure to its friends, tha real value and beauty of the Aldine will be most appreciated after it is bound up at the close of the year. While other publications may claim anjectior cheapness, as compared with rivals of

the year. While other publications may claim superior chespness, as compared with rivals of a similar class. The Aldine is a unique and original conception—alone and unapproached—absolutely without competition in price or character. The possessor of a complete volume cannot duplicate the quantity of fine paper and engravings in any other shape or number of volumes, for ten times its cost; and then, there is the chromo, besides!

The national feature of The Aldine must be taken in no narrow sense. True art is cosmopolitan. While The Aldine is a strictly American institution, it does not confine itself to the peproduction of native art. Its mission is to entivale a broad and appreciative art taste, one that will discriminate on grounds of intrinsiomerit. Thus, while pleading before the patrons of The Aldine, as a leading characteristic, the productions of the most noted American artists, attention will always be given to specimens

pleasure and instruction obtainable from home or foreign sources.

The arlistic illustration of American scenery, original with The Aldine is an important feature, and its magnificent plates are of a size more apprepriate to the satisfactory treatment of details than can be afforded by any inferior page. The judicious interspersion of landscape, marine, figure and animal subjects, sustain an unnhated interest, impossible where the scope of the work confines the artist too clossly to a single style of rabject.
